Applicant's amendment dated November 25, 2008, has been fully considered.

Applicant has amended the claims to include the anchor means, transport means, to overcome the applied reference from the previous Office Action. However, Applicant also removed the most critical elements "magazines" out of the independent claims. Therefore, the claims now read on US 7075191 (Davison). Claims 18-20 recite the structures of the magazines and are objected to on the merit.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10-17, 21, are rejected under 35 U.S.C. 102(b) as being anticipated by US 7075191 (Davison).

Davison discloses a tidal wave power generation system comprising many anchor means 31, many sails 38 submerged under water and mounted on a belt-like structure 32, figure 10a shows the generator 62, figure 13 shows the V-shaped sails 34. Figures 14-15 shows the system operated under water.

Claims 18-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
